

SCHURTER Product Offerings

Electromagnetic Compatibility (EMC)

FMBB NEO Single Phase Block Filter

- AC filter with broad band attenuation
- Rated currents 1 - 36 A
- 2 Stage
- Completely closed steel housing
- Wide temperature range
- Designed for industrial applications
- Also suitable for medical applications

FMAB NEO Single Phase Block Filter

- AC filter with high symmetrical attenuation
- Rated currents 1 - 60 A
- 1 Stage
- Compact and cost optimized
- Completely closed steel housing
- Designed for industrial applications
- Suitable for medical equipment

FMER SOL 3-Phase Block Filter

- High power DC filter
- Rated currents 25 - 2300 A
- Rated voltage up to 1200 VDC
- 1 Stage
- Very high attenuation
- Compact filter with light weight design
- For DC and photovoltaic converters

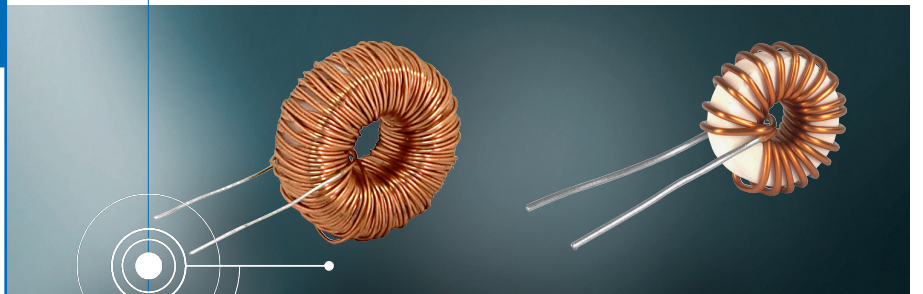

DKFP Magnetically Compensated Choke

- THT-Terminals
- Rated currents 0.3 - 10 A @ Ta 40 °C
- Rated voltage up to 250 VAC
- Multiple PCB-mounting options
- High inductance
- Compact dimensions
- Multiple pin configurations

DSO and DENO Open Chokes

- Vertical mount
- Through hole (THT) terminal type
- Rated voltage up to 600 VDC (DSO)
- Rated currents 0.5 - 16 A (DSO)
16 - 25 A (DENO)
- Rated inductance 0.01 - 1 mH (DSO)
2 - 4 mH (DENO)
